Github: github.com/ Dwaipayan-15
Email: dwaipayandas150@gmail.com
Mobile: +91-9647577788

SKILLS

Languages/Basics: Python, C, Java, SQL, HTML, CSS, DBMS, CN

Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Tkinter, Flutter, Firebase

Tools/Platforms: MySQL, PostgreSQL, SQLite (Relational), MongoDB, Git, GitHub, Postman, Linux, Tableau, Excel, Figma, Agile, SDLC, Unit Testing, Debugging, Code Review, CI/CD, Performance Optimization, Design Patterns (MVC/MVVM), Authentication & Authorization, Word, PowerPoint

Soft Skills: Problem Solving, Analytical Thinking, Time Management

PROJECTS

UnDoc Web | Python, NLP, Speech Recognition, TTS — Jun 2024

- Developed a multilingual text summarization tool with integrated voice input/output.
- Implemented NLP techniques to extract key insights from large text datasets.
- Integrated speech-to-text and text-to-speech for accessibility and usability.
- Designed an efficient pipeline for real-time summarization and translation.
- Github Repository Link: **github.com/Dwaipayan-15**

Cinephile | MERN Stack (React, Node.js, MongoDB) — October 2025

- Built a social media platform for cinema creators to showcase and discover content.
- Developed features inspired by LinkedIn, YouTube, and Instagram for networking.
- Implemented user authentication, profiles, and content interaction (likes, comments).
- Enabled producers to connect with and hire artists through the platform.
- Github Repository Link: **github.com/Dwaipayan-15**

CERTIFICATES

Bootcamp Of Python — March 2023
UpGrad — Certificate Link

NextGen Networking Intern
Lpu — Certificate Link — July 2025

INTERNSHIP

NextGen Networking Intern — Jun – July 2025

- Completed intensive internship on **Advance Computer Networks** with practical exposure to real-world networking environments.
- Worked with tools like **Cisco Packet Tracer and Wireshark** for network simulation, packet analysis, and troubleshooting.
- Implemented and analyzed **TCP/IP protocols, OSI model, IP addressing, and subnetting** for efficient network design.
- Configured and tested **routing and switching mechanisms**, ensuring optimized data flow and network segmentation
- Performed **network troubleshooting and performance analysis**, identifying latency issues and improving reliability.
- Explored **network security fundamentals**, including secure data transmission and basic threat mitigation techniques.

EDUCATION

Lovely Professional University — Punjab, India
B.Tech - Computer Science and Engineering: Data Science with ML; CGPA: 7.01 — Since Aug 2023 - Present
