Internship

NextGen Networking Intern **Jun 2025 - July 2025**

- Completed intensive internship on **Advance Computer Networks** with practical exposure to real-world networking environments.
- Worked with tools like **Cisco Packet Tracer and Wireshark** for network simulation, packet analysis, and troubleshooting.
- Implemented and analyzed **TCP/IP protocols, OSI model, IP addressing, and subnetting** for efficient network design.
- Configured and tested **routing and switching mechanisms**, ensuring optimized data flow and network segmentation
- Performed **network troubleshooting and performance analysis**, identifying latency issues and improving reliability.
- Explored **network security fundamentals**, including secure data transmission and basic threat mitigation techniques.

Projects

Undoc Web | *Python, NLP, Speech Recognition, TTS* **Jun 2024 - Aug 2024**

- Developed a multilingual text summarization tool with integrated voice input/output.
- Implemented NLP techniques to extract key insights from large text datasets.
- Integrated speech-to-text and text-to-speech for accessibility and usability.
- Designed an efficient pipeline for real-time summarization and translation.
- Github Repository Link: **https://github.com/Dwaipayan-15/Python-Project**

Cinephile | *MERN Stack (React, Node.js, MongoDB)* **Oct 2025 - Jan 2026**

- Built a social media platform for cinema creators to showcase and discover content.
- Developed features inspired by LinkedIn, YouTube, and Instagram for networking.
- Implemented user authentication, profiles, and content interaction (likes, comments).
- Enabled producers to connect with and hire artists through the platform.
- Github Repository Link: **https://github.com/Dwaipayan-15/night-edition-backend**

Certificates

Bootcamp Of Python **March 2023**
UpGrad — Certificate Link

NextGen Networking Intern **July 2025**
Lpu — Certificate Link

Technical Skills

Languages C, Java, Python

Technologies/Frameworks: Angular, React JS, Node.js, Git, GitHub, Ubuntu, REST APIs

Skills: Data Structures & Algorithms, Problem Solving, Natural Language Processing (NLP), Text Summarization, Multilingual Processing, Text-to-Speech Integration, API Integration, Responsive Web Design

Education

Lovely Professional University **2023 – 2027**
Computer Science and Engineering — CGPA: 7.01 *Jalandhar, Punjab*

Iswarpur B.M. Academy **2022 – 2023**
12th with Science — Percentage: 72.34% *East Medinipur, West Bengal*

Iswarpur B.M. Academy **2020 – 2021**
10th with Science — Percentage: 81% *East Medinipur, West Bengal*
